Summary

A highly skilled software developer specializing in Flutter and Laravel, with a proven track record of developing high-performing mobile applications and robust backend solutions. Adaptable and goal-oriented, I am eager to leverage my technical expertise in a challenging role to drive innovation and success. I am also experienced in leading teams, managing projects, and ensuring the delivery of high-quality software solutions.

Professional Experience

Freelance Software Developer
January 2022 - Present

- Developed and maintained mobile applications and backend systems using Flutter and Laravel.
- Worked proficiently with databases, including MySQL and SQL Server.
- Managed multiple programming languages such as PHP and Dart.
- Delivered high-quality software solutions in the freelance market, demonstrating adaptability and technical proficiency.

Frontend Developer (Remote)
January 2022 - Present

- Utilized Flutter to develop user-friendly and efficient front-end interfaces for mobile applications.
- Worked remotely, collaborating with diverse teams and clients to deliver responsive and visually appealing applications.

Project Manager
January 2022 - Present

- Successfully led multiple large-scale projects, demonstrating strong project management skills.
- Consistently met project deadlines while ensuring high-quality standards and client satisfaction.
- Effectively coordinated teams and resources to deliver optimal results.
- Led a team of three members, including myself, on a technical project involving the development of an application and a control panel website. Managed task distribution and reviewed completed tasks to ensure they met the highest standards.

Mac Device Manager
January 2022 - Present

- Managed Mac devices with a focus on efficiency and security.
- Skilled in uploading and maintaining applications on the Apple Store, ensuring compliance with all guidelines and standards.

Education

Bachelor of Information Technology
Saba University, Sana'a

- Expected Graduation: March 2025
- Currently in final year, demonstrating strong academic performance and deep engagement in software development projects.
